# Zoom LTI in Canvas

Zoom LTI helps instructors schedule, edit and launch meetings from within Canvas. Students can view and join upcoming meetings.
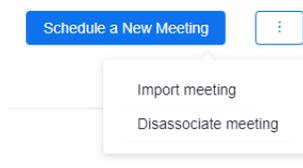

Enable Zoom LTI Within a Course:

1. Navigate to the course
2. Scroll on the sidebar until you see Settings

3. Click the Navigation tab
4. Find Zoom LTI Pro
5. Click and drag it up to a convenient place to enable it
6. Click the Save button
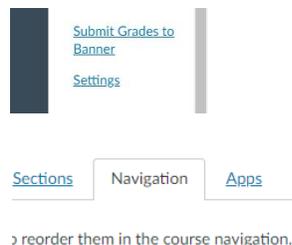

Using Zoom LTI Pro

1. Click the Zoom LTI Pro link in your course sidebar
2. Click Schedule a New Meeting. You can also import meetings with a meeting ID by clicking the three dots and clicking Import meeting. You can delete all meetings by clicking Disassociate meeting and entering the meeting ID
3. Enter the date, time and duration of the first session
4. Click the Recurring meeting checkbox
5. Select Weekly from the Recurrence dropdown
6. Select 1 week from the Repeats every dropdown
7. Select the days of the week from the Occurs on field
8. Select the end date for the semester
9. Scroll down and select Enable join before host if you would like your students to be able to join before you
10. Select Record the meeting automatically if you would like your meeting to be recorded to the cloud.
11. Click Save
12. Select the Zoom LTI Pro link from the sidebar
13. Your meetings should have populated with an option to Start the meeting. Your students will see the option to Join
14. Delete the meeting dates for meetings that fall on holidays

Accessing Zoom LTI Pro Recordings in Panopto in Canvas

1. Enable Panopto in your Canvas course by following the steps in the Enable Zoom LTI Within a Course section above.
2. Click the Panopto link in the sidebar
3. Your recorded Zoom meetings will appear here a short to medium time after the Zoom meeting has ended
